

Defend against frost without sparks! AIRCARE is a dependable de-icing fluid that prevents compressor air lines from freezing. Its non-flammable nature makes it a safe choice for confined or underground spaces, eliminating the risks of fire or explosion. AIRCARE is recommended for use in caves, mines, sewers, bunkers, basements, subway stations, and tunnels.

# AIRCARE

## Non-Flammable De-Icer Fluid for Confined Spaces and Working Underground

Enriched with special additives, it guards against corrosion, inhibits rust, and includes a lubricant for parts protection, extending equipment lifespan. Trusted by Canada's industrial and commercial sectors, it is the go-to solution for optimizing efficiency and minimizing downtime in harsh winter conditions.

### Fast De-Icing

Atomization technology binds with moisture when introduced into the air lines. This rapid de-icing process prevents compressed air from freezing, minimizing costly downtime.

### Smart De-Icing

Unlock cost-saving benefits with AIRCARE! Specialized additives quadruple application, addressing de-icing, preventing freezing, drying, corrosion, and rust, all in one solution.

### Safe De-Icer

Government-compliant and non-flammable formulation ensures safe storage and use in all air applications, providing peace of mind without harming internal components.

#### AVAILABLE QUANTITIES

20 Litre Pails  
200 Litre Drums
