

FROSTFREE, the sole product of its kind manufactured in BC, Canada, ensures optimal performance for a truck's compressor air lines and air-powered tools and equipment. It prevents ice buildup in extreme winter conditions through rapid de-icing, eliminating the risk of malfunctions caused by frozen moisture. FROSTFREE guarantees reliable operation for various systems, including transmissions, suspensions, and brakes.

FROSTFREE

Anti-Freeze Lube for Compressor Air Lines

Beyond melting and preventing ice, FROSTFREE serves as a protective lubricant, extending the lifespan of parts. With specialized additives, it safeguards air-powered components, tools, and equipment in corrosive conditions. Its unique moisture-absorbing capability sets it apart, functioning as both an anti-icing agent and a year-round anti-corrosion solution. Drive confidently in cold weather with FROSTFREE!

Fast De-Icing

Trusted by Canada's leading transportation providers, it rapidly de-ices frozen air lines and prevents freezing in temperatures as low as -50°C, ensuring operational efficiency in extreme cold conditions.

AVAILABLE QUANTITIES

20 Litre Pails
200 Litre Drums

Smart De-Icing

A versatile winter liquid de-icer of choice. This blend of premium additives does it all — de-icing, anti-icing, lubricating, and functioning as an anti-corrosion agent.

Better De-Icer

Long-lasting protection from humidity, freezing, and wear. Lubricating internal components with minimal resistance extends the lifespan of parts such as o-rings, valves, and pistons in all air systems.

CUSTOM FORMULATION

Velocity Chemicals will partner with you to ensure you get the right product to suit your needs – precisely, safely and economically.
